

EYES ON THE FUTURE

AGENDA

NAVIGATING POLARIZED ENVIRONMENT

In an increasingly polarized world and unstable market environment can pose significant challenges for investors seeking to uphold principles of equity and fairness. This subtheme explores strategies for navigating polarization and its implications for long-term investment decision-making.

COLLABORATIVE STEWARDSHIP IN AN ERA OF COMPLEXITY

As the pace of global changes accelerates, traditional models of stewardship are being tested. The challenges we face are interconnected and system-wide, from climate risk and social fragmentation to technological disruption. In this context, siloed strategies and short-term metrics can no longer suffice.

REDEFINING FIDUCIARY DUTY

We explore how fiduciary duty is being reinterpreted in a time of transition and what does it mean to act in the "best interests" of beneficiaries in a world shaped by systemic risks? We discuss on going topics on how do legal frameworks, investor expectations, and real-world outcomes intersect.

SCENARIO ANALYSIS AS A STRATEGIC COMPASS

How can forward-looking, scenario-based analysis move from a compliance tool to a strategic driver? We'll explore methodologies and how they can inform real-world decision-making across sectors.

Impact Summit America is a highly curated, invitation-only institutional investor and asset owner conference that annually brings together thought leaders and practitioners in the impact investing space. As a satellite conference to esteemed flagships Impact Summit Europe and Impact Summit Asia, Impact Summit America provides a trusted platform for investors from North America to catalyse institutional capital to support the most ambitious environmental & societal goals, promoting meaningful investments that go hand-in-hand with financial returns.

The programme will offer practical instruments for investors to increase their impact allocation, contributing to scaling their positive impact on people and the planet. It also provides the necessary content and tools to start investing for impact and returns.

We look forward to connecting leading North American institutional investors & asset owners for a meaningful dialogue at the 6th Impact Summit America in New York City.

PRELIMINARY AGENDA

Time	Session Description	
09:00 – 09:30	Registration for the Investors' breakfast workshop	
09:30 – 10:20	Investors' breakfast workshop Myth busting LP reporting standards <p><i>As impact investing matures, LPs are demanding clearer, more consistent reporting to assess whether funds are truly delivering on their stated impact goals. In session we cover certain myths from surveyed LPs & GPs around reporting challenges to unpack the root causes of these discrepancies. We'll explore how both sides can align expectations, improve data transparency, and co-create more effective, decision-useful impact reporting.</i></p> <p><i>Developed by Impact Frontiers & Impact Capital Managers</i></p>	Asset Owner -only session
09:30 – 10:30	Registration & Welcome coffee (general attendance)	
10:30 – 10:40	Opening remarks Impact data deep dive by Phenix Capital Group Market Intelligence <p><i>In this session, Phenix Capital Group welcomes the delegates and will share the most current data in the impact industry globally and specifically in the North America region.</i></p> <p><u>Speaker:</u> Chantal Hermans, COO, Phenix Capital Group</p>	Plenary
10:40 – 10:50	Keynote speech A call for collective action <p><i>This keynote explores how enduring climate progress requires a bold alliance across technology, business, community activism, and culture; each offering a unique path to change. In a time of political volatility and rising division, it calls for solutions that transcend election cycles and touch every part of society. By honouring innovation, justice, and imagination, the keynote underscores that we fight for the planet not only out of urgency, but because of the possibility we believe the future holds.</i></p>	Plenary
10:50 – 12:00	Investor panel Investing in climate adaptation and resilience investments: is it just good business? <p><i>Investing in climate adaptation is no longer just a moral imperative, it's one of the most financially sound development strategies available. This session covers why adaptation is underfunded despite proven economic and social value and will</i></p>	Plenary

highlight investable opportunities that deliver outsized impact even in the absence of climate disasters.

Speakers:

- **Sara E. Murphy**, Director, Sierra Club Foundation
- **Sandra Osborne Kartt**, Deputy Chief Investment Officer, ImpactAssets Capital Partners
- **Robert Schultz**, Partner, Capricorn Investment Group
- **Richard E. Zimmerman**, Partner, WE Family Offices

12:00 – 13:00 Lunch

13:00 – 14:20 Breakout session A1 | InvestorConnect session

Breakout
A1

This dynamic session, consisting of 15-minute speed meetings, is designed to give asset owners an efficient way to learn about a selected group of impact strategies of institutional quality. This is an opportunity to enquire for more details, whilst making connections with other asset owners along the way.

13:00 – 14:00 Breakout session B1 | Re-thinking impact exclusions amid complexity

Breakout
B1

In this session, we address how exclusion lists are evolving (nuclear, fossil fuels, defence), and the ethical, financial, and geopolitical pressures that are reshaping decision-making. We also discuss the complexities of dual-use technologies and whether ethical frameworks can keep pace with innovation.

14:10 – 14:30 Networking coffee break

14:30 – 15:00 Breakout session B2

Breakout
B2

Panel discussion | Public-Private collaboration in impact investing: navigating challenges and opportunities

In this panel, we explore how governments, private investors, and non-profit organizations can work together to enhance the effectiveness of social & environmental investment initiatives in the Americas. The discussion focuses on innovative financing mechanisms, policy frameworks, and strategies for overcoming coordination barriers at local, regional, and national levels.

Breakout
B3

14:30 – 15:00

Breakout session B3

Panel discussion | Redefining fiduciary duty & stewardship

We are entering a new era of investor influence where rising legal scrutiny intersects with rising generational values. As governance norms shift and ESG pushback grows louder, shareholder engagement is under the microscope. At the same time, a historic wealth transfer is underway, with younger generations and underrepresented communities are bringing a deeper commitment to social equity, climate justice, and long-term stewardship.

Speakers:

- **Ryan Malloy**, Sustainable Investing Research Analyst, Fiduciary Trust International
- **Peter M. Lupoff**, Partner, Beatrice Advisors

15:00 – 15:20

Networking coffee break

Plenary

15:20 – 16:00

Panel discussion | Investing with a social equity lens

Investors are rethinking how to deploy capital in ways that advance equity across communities. This panel explores strategies for investing with a deliberate focus on supporting immigrant communities, BIPOC entrepreneurs, and gender equity, while addressing systemic barriers in health, education, and financial inclusion. Panelists will discuss how to evaluate and manage risk in today's evolving impact landscape, frameworks for measuring equity focused outcomes, and approaches to aligning portfolios with both financial goals and social transformation.

16:00 – 16:20

Case Study | 3D Investing

Plenary

The Impact Evaluation Lab (IEL) help investors navigate trade-offs by treating every investment as three-dimensional: risk, return, and impact. IEL doesn't prescribe values but provides transparent data and rigorous analytics so investors can choose what best aligns with their goals. For those who want to "do well and do good," IEL empowers them to balance financial outcomes with meaningful social and environmental impact.

Plenary

16:20 – 17:20

Standoff | Net Zero Ambitions

A debate style conversation between four corporations. Two corporations are head strong in their efforts to pursue net-zero standards while the other two corporations have stepped back from net-zero ambitions. We hear their reasonings to help investors

understand systemic urgency. With net-zero leadership faltering, the private capital of impact investors becomes even more critical in driving decarbonization, social progress, and resilience.

17:20 – 18:30 **Closing reception drinks**

WHO SHOULD ATTEND:

INSTITUTIONAL INVESTORS & ASSET OWNERS

This invitation-only programme is catered for C-Suite, Board Members, Portfolio Managers, ESG/Impact Investing officers, and respective teams of:

- Public and Corporate Pension Funds and their Fiduciary Managers,
- Insurance Companies,
- Family Offices,
